Design + Development

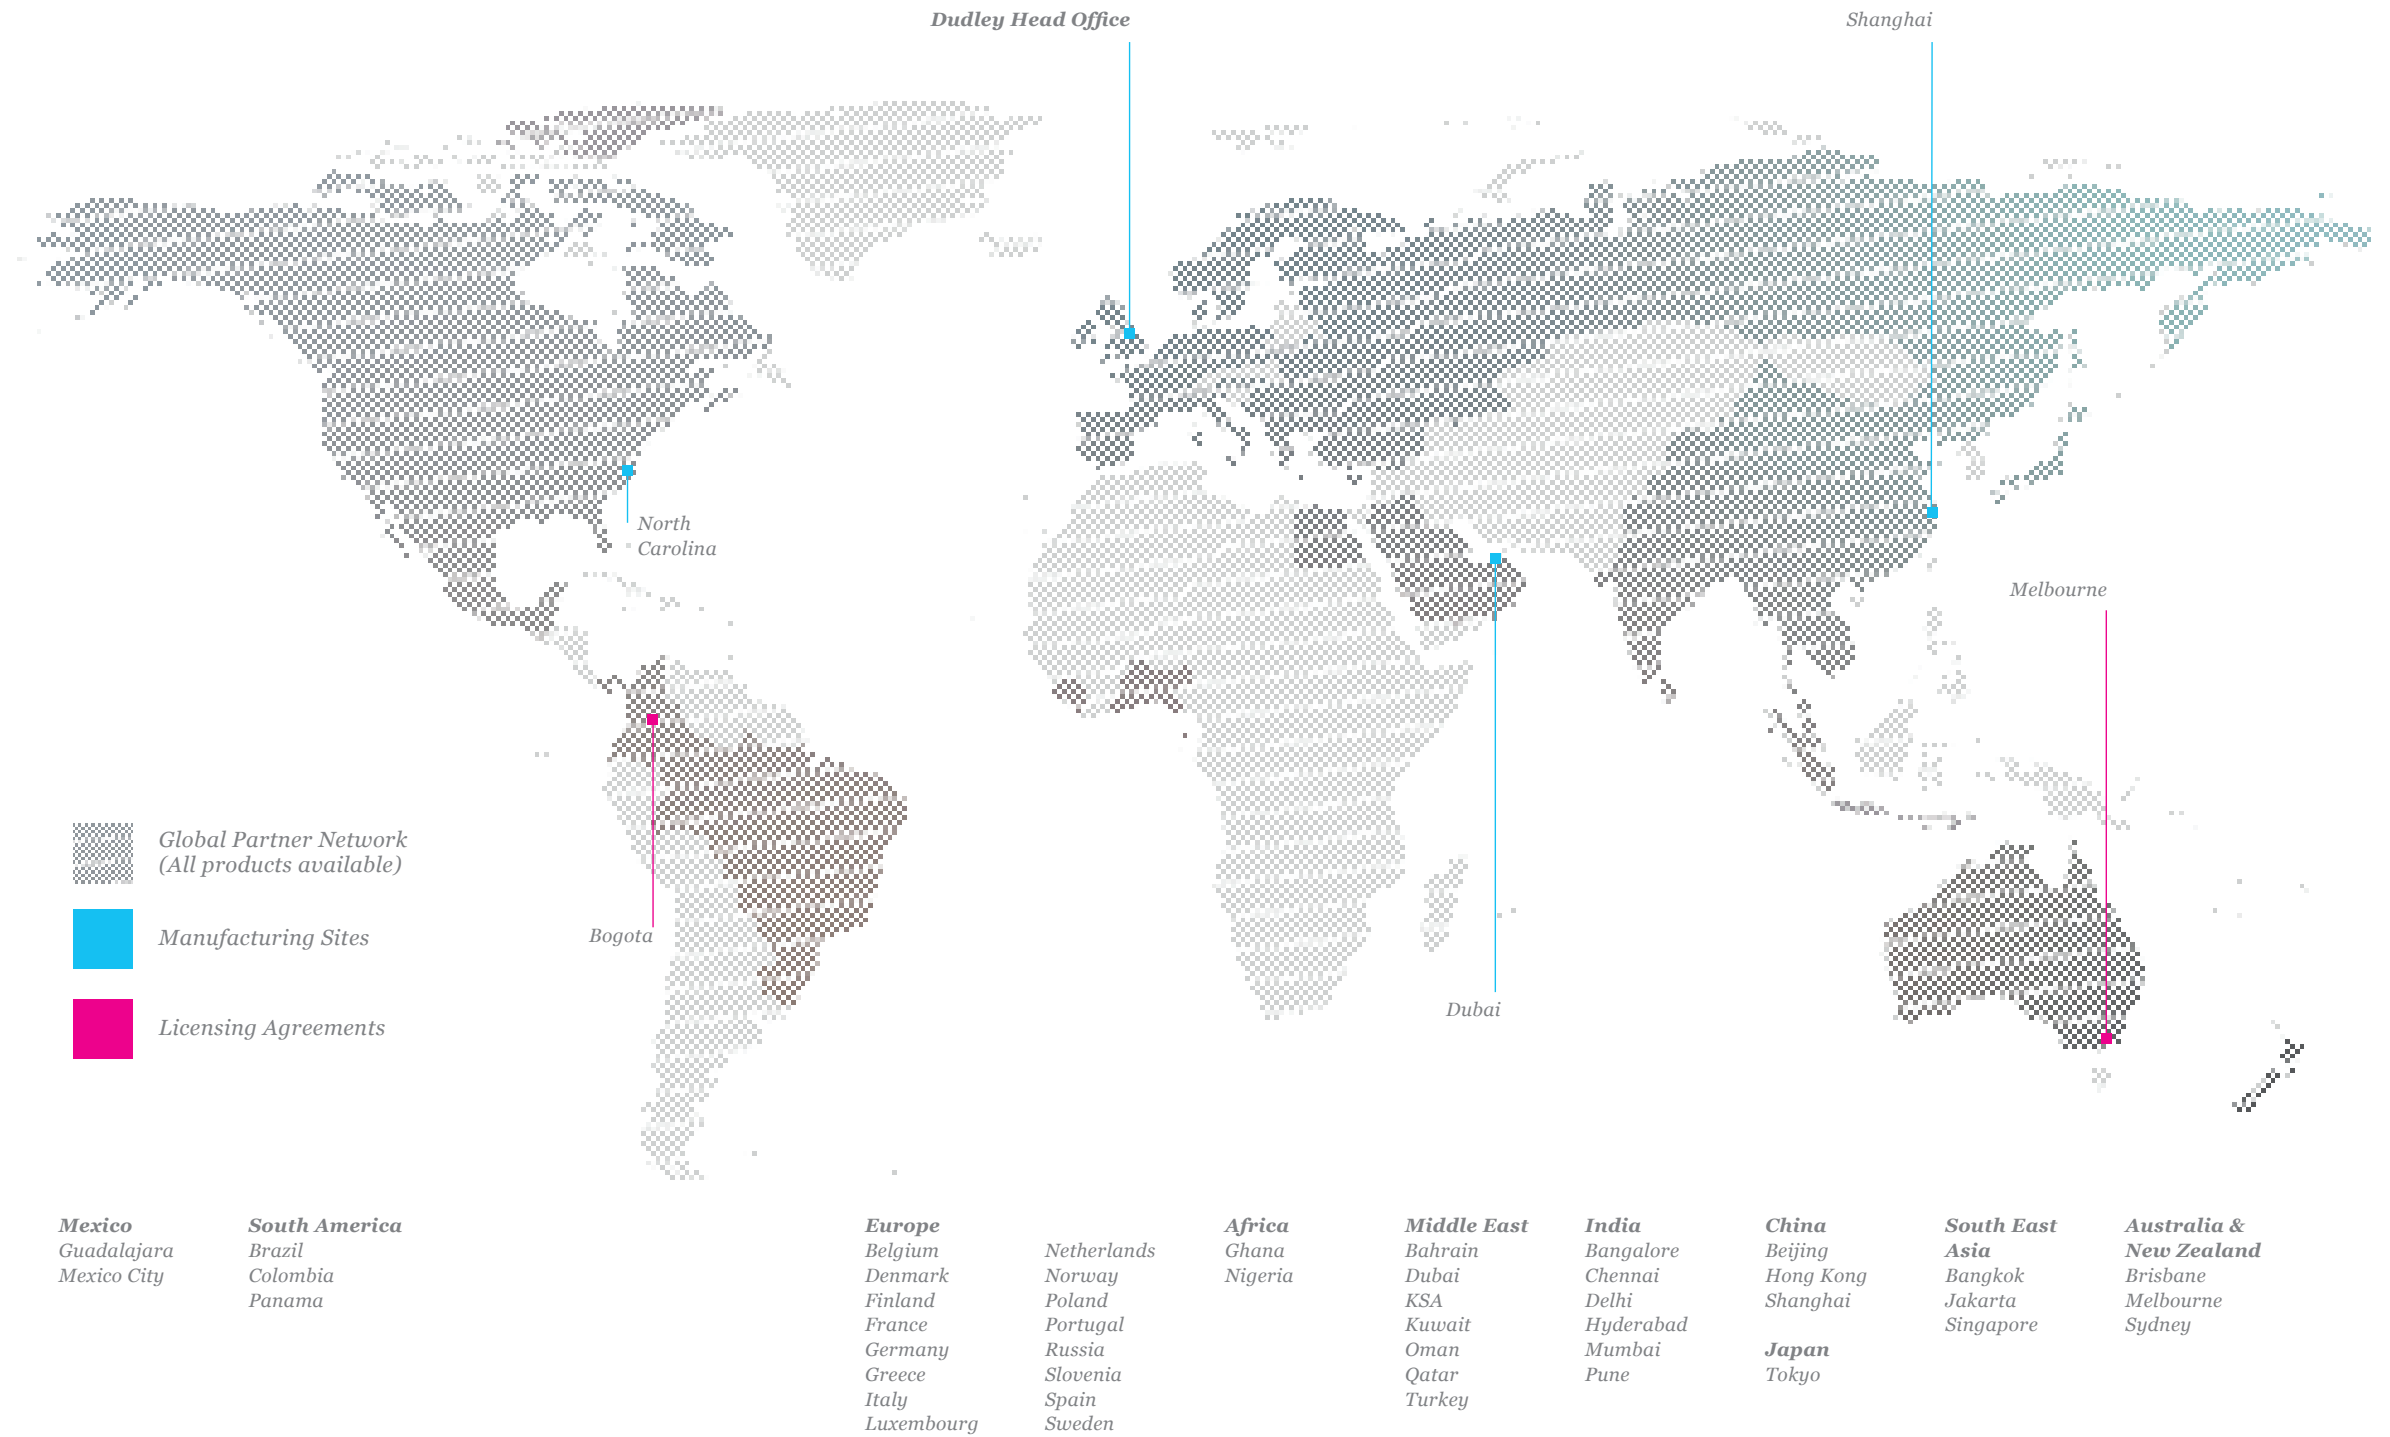

The Boss Design Group brand has become a global success. Our focus on innovation and product design has made this possible.

Boss Design's unique ingredient is our ability to tailor products to suit our client's requirements. We are always happy to sit down and discuss collaborative projects and the development of bespoke designs with clients looking to invest in rebranding and refurbishment programs.

Our Design and Development Team is made up of designers, engineers, model-makers and upholsterers; a permanent team of nine people at Boss Design and three people at Lyndon Design are supported by an international network of freelancers with wide-ranging skills and experience to help drive our product development program forward and ensure that the products we manufacture are as environmentally friendly, ergonomically sound and inspiringly formed as possible.

*A British
company
with
global
capability*

Today we manufacture in 5 continents and service over 30 countries. Export now accounts for around 25% of turnover with key export markets in the Middle East and North America. Accessing Boss Design Group products has never been easier; our seating ranges are available through our network of International dealers and on display in our showrooms in the UK and Dubai.

*We've provided solutions
for some of the worlds
most respected brands*

Boss Quality

As the largest upholstery manufacturer in the UK our knowledge on stitch details, including buttons/piping/foot details and the like can all be discussed without compromising the quality and feel of the products.

Existing products from our portfolio can be fully customised to suit our clients' needs & expectations. Staining of products that feature wooden finishes can easily be coordinated so a common look and feel is easily achieved throughout a project install.

Trinetic

Trinetic delivers progress in motion. Three independent pivot points combine to achieve the most sophisticated kinetic yet.

Trinetic is the world's first fully certified task chair to provide dynamic support without the need for manual user adjustments.

Trinetic does not need to be adjusted for individual users, making it the perfect chair to support flexible work patterns in situations where several different people can be sat on the same chair throughout the course of a working week.

Watch the Trinetic video [here](#).

Coza

boss
design

Coza

Coza is a task chair that boasts extraordinary comfort and dynamic support by using the natural flexibility of a single ribbon of material. Created in collaboration with renowned German furniture designer, Martin Ballendat, Coza is the perfect chair to facilitate flexible working in a modern office.

boss
design

Toto

boss
design

Toto

Combining style and versatility Toto is a family of multi-purpose chairs. Ideal for the demands of the modern workplace, the range is suitable for meeting rooms, breakout areas, dining areas and hospitality environments.

Toto's contoured form creates modern design aesthetic whilst the fine seam patterned upholstery bear all the hallmarks of Boss Design.

boss
design

Vite

Vite Cashier

Vite is the ideal work chair for the modern office that dictates comfort, flexibility and style.

An instinctive task chair that combines simplicity, comfort and functionality. Ideally suited to flexible working environments that demand intuitive work chairs, its ease of use is its forte.

Incorporating a synchronised mechanism that responds to your requirements in the fewest of adjustments, the technology behind the chair ensures enhanced geometry and total comfort at all times. The encased dual density mesh-back design offers maximum back support, negating the need for back height adjustment.

boss
design

App

App

The App operator chair has been designed for longevity and durability providing maximum support for the user.

Standard features include 70mm back height adjustment and 65mm seat slide. App is available with a plastic outer back, fully upholstered back or mesh back. The range also includes a cashier chair and visitor chair.

App encompasses easy to reach adjustable levers with highly visible graphics, allowing users the ability to lock the synchronised mechanism in any one of five positions. The highly tooled plastic seat and back are complemented by the CMHR foams providing an unrivalled level of comfort and durability.

Money Penny

Money Penny

Incorporating a stylish, breathable mesh-back and using the highest quality components, Money Penny is a versatile task chair with a superior level of comfort. Ergonomically engineered, it has a range of adjustment controls for individual needs and an easily manoeuvred pad for optimum support in the lumbar zone. An optional headrest is also available.

boss
design

Marnie

boss
design

Marnie

An exciting fusion of elegant design, premium upholstery and attention to detail, Marnie is a lounge chair collection which embodies luxury and style. This understated collection features a high and low back arm chair, with its full body and angular back shape lending itself perfectly to versatile upholstery.

boss
design

boss
design

Shuffle

Shuffle is a modular concept with endless configuration possibilities. Based around one simple unit, Shuffle can be used for all current office functions associated with soft upholstery such as touchdown and breakout areas, meeting spaces and partitioning.

boss
design

Mea

boss
design

Mea

Mea is a sophisticated, self-adjusting work chair that is available in high or low-back options and features matching or contrasting seat and backrest liners. These may be specified as upholstered or veneered.

With a soft, organic and fairly traditional aesthetic, Mea is also available as a high-back executive chair.

boss
design

Tokyo

The smooth, organic curves and sprung frame of Tokyo guarantees a relaxed sitting experience. The soft padding adds extra comfort, while its fine seam patterned upholstery and striking sleek chrome arms demonstrate the hallmarks of Boss Design.

With a polished aluminium 4-star swivel base and glides for hard or soft floors, it is a sophisticated choice for any boardroom, contemporary meeting area or executive office. Tokyo upholstery looks stunning when specified with the optional quilted stitch detail on the seat and back.

boss
design

Mars

Mars Cantilever

Mars is a family of light and versatile meeting, visitor and conference seating. The refined construction of which belies strong and exceptionally comfortable chairs. The generously proportioned and flexible polypropylene seat, back and arms combine to offer a modern aesthetic. Mars may be specified with a choice of back, which includes injection moulded plastic, semi-upholstered or fully upholstered.

The range consists of a 4-legged and cantilever chair, which may also be specified as a 4-legged with castors, 4-star base or 5-star base on castors.

boss
design

Kruze

boss
design

Kruze Lounge

A fusion of classic and contemporary defines the philosophy behind the Kruze Lounge chair. A striking visual and sitting experience, intelligent design combines with the finest craftsmanship. The high sculpted back and gently curving contours promise outstanding sitting comfort, while its distinctive profile makes it a stand-alone statement piece to enhance any executive lounge, reception or meeting area.

boss
design

Kruze

Possessing presence and panache, the highly versatile Kruze chair will complement a range of environments and draws the eye to its elegant form. The gently sculpted contours and generous proportions, promise outstanding sitting comfort, while the choice of fully upholstered or with contrasting Black American Walnut outer veneer, makes it adaptable for relaxed or more distinguished areas.

boss
design

Kara Task Chair

The Kara work chair provides exceptional comfort with minimum adjustment.

The one piece mesh construction is designed to mould to the user providing comfort and support instantly, whilst the frame flexes with the users every move without the need for any adjustment.
